

## DEMOCRATS CARRY RICHMOND BY 111

### Hard Work of Women Offsets Tremendous Negro Vote—Early Republican Lead Is Wiped Out

As a result of the splendid work of the Democratic women of Richmond, the eight precincts of the city registered Democratic by 111 majority over the republicans in the regular registration Tuesday.

Probably never before in the history of local politics was harder work done to get out full party vote, and to the Democratic women workers is conceded on all sides the credit and glory for rolling up such a satisfactory vote and majority. The solid vote of the negro women led by their white leaders, was registered as republican. Not a negro woman in the city registered as a Democrat. And in the face of this insurmountable obstacle, the Democratic women and men rolled up enough to offset and defeat this solid block of voters.

Up to four o'clock it seemed that the republicans would carry the day in Richmond unless a big Democratic vote came out in the closing hours. When the Daily Register's report closed at four o'clock, the republican majority stood at 64. But the valiant Democratic workers redoubled their efforts and the final result of the registration tells the story of their victory.

The colored vote came out very early in the morning. In the City Hall, Francis and other east end precincts, long lines of negro men and women were waiting at the polls when they opened at six o'clock. Automobiles were kept busy by both sides all day, and every possible voter was taken to the polls to register.

### London Mob Again After "Pussyfoot" Johnson

(By Associated Press)  
London, Oct. 6.—Wm. E. "Pussyfoot" Johnson, the American temperance advocate, narrowly escaped an angry crowd which interrupted the temperance meeting last night. Reading Berkshire tried to break through the locked doors of the hall to reach him. The crowd also three bombs containing foul smelling chemicals.

In November Johnson was dragged from the platform from which he was advocating prohibition for London. He lost on eye during the melee.

### DRAWING LARGE CROWDS

Eddie Murray and Frank Stanhope continue to pack the Richmond theaters with their musical act. Last night standing room was selling at a premium. They were repeatedly brought back when they sang "My Home Town is a One-Horse Town" and "My Girl of the Bimbo Isle."

These boys have already made many friends since arriving in Richmond on Monday, and Miss Ward is to be congratulated in securing such talented artists for her theaters here.

## ONE NEGRO SHOTS AND KILLS ANOTHER

### Dave Campbell Meets Death At Hands of Thos. Gentry Early Tuesday Evening

Dave Campbell, 36, colored, was shot and almost instantly killed shortly after six o'clock Tuesday night at the Irvine street crossing of the L. & N., by Thomas Gentry, 27, also colored, after Campbell had given him a match, Campbell dying within two minutes after a bullet from a .38 calibre revolver plowed through his forehead and another through his breast. After the shooting Gentry walked from the scene of the tragedy and was captured by the police ten minutes later.

Campbell, who was employed on the L. & N. railway as a track workman, was married and lived with his family on Elm street. Gentry, who is single, was employed by W. W. Broadus & Co. Both men worked Tuesday. The tragedy occurred when they met, three witnesses stating there were no words passed between the two men, except that Gentry asked for a match and when it was tendered he took it from Campbell, and immediately started shooting. There was a commotion in the vicinity and within a few minutes scores of people had been attracted. The police were informed. Campbell walked a short distance from where he was standing when the shooting took place, and fell to the ground, dying immediately.

Coroner Muncy was notified and was soon on the scene. He gathered testimony from the witnesses after which the body was taken charge of by him and taken to Muncy Bros. undertaking establishment.

Chief of Police Claud Devore upon being informed of the tragedy, spread a police dragnet about the city with the determination that the murderer should not escape. The result was that Gentry was apprehended by Patrolman Maupin in the vicinity of the gates at the Richmond cemetery ten minutes later. Gentry was placed in jail without questioning. It is claimed he had nothing to say regarding the shooting either to the officials or jailer Wm. Burgess, when placed behind the bars. Gentry has been absent from the city for some time and recently returned to Richmond. It is said there existed a grudge between the two men of long standing, and that the trouble resulted from alleged attentions both men had been paying to a woman of the city. Gentry has a police record, having been implicated in a shooting once before in which he is said to have injured a man, and other cases in he had figured, so police say. He has a reputation among the negroes of the city, police say, as being a bad man.

The intention of Chief of Police Devore is to have the case settled immediately, if possible, and he personally conducted the investigation as well as other officers, and the witnesses were summoned and appeared in city court Wednesday morning. There were three of them, William Francis, Joseph Fife, and Anna Bush, all negroes. It is claimed these people were in the immediate vicinity when the shooting took place. They gave their testimony to Coroner Muncy, and it is known were taken before the grand jury before noon Wednesday from city court where they also gave their testimony regarding the killing. The woman in the case, officials say, is married.

The police are of the belief that an indictment against Gentry will be one of the first returned by the grand jury and that the case will be heard during the present term of court, since Chief of Police Devore is working hard on this end, being desirous of having the affair off his hands and settled at the earliest possible moment.

### WILL REBUILD BARN

John Allman, one of the alleged victims of the operations of a firebug believed to have been operating here recently, is preparing to rebuild this barn. Material has been contracted for and preparations are being made for the construction within a short time. This is one of the last of the mysterious fires that created such furore in the city, owing to the regularity with which the firemen were called to put out a mysterious blaze.

### Weather For Kentucky

Fair tonight and Thursday; somewhat warmer Thursday.

### Today's Livestock Markets

Cincinnati, Oct. 6.—Cattle steady; one heavy load; hogs \$16.25; Chicago strong.  
Louisville, Oct. 6.—Cattle 400; steady; hogs 1,300; steady; sheep 200; steady; all unchanged.

## CRECELIOUS TURNS DOWN APPOINTMENT

Last July, when there was a big list of vacancies in the United States Army of officers of the rank of Major, there was permitted from the various camps, a certain number to take an examination at Chicago for the positions. City Engineer Charles F. Crecelious of Richmond, decided to make a try for it, he being on an eligible list. He went to the Windy City and took the examination. It is now announced his examination proved satisfactory and he has been informed of his appointment. It was while in charge of Camp Humphreys that Mr. Crecelious received the initial notification.

He has been in charge of the street and other work in Richmond for some time and reports that he will remain until he has done everything he possibly can for this city. Mr. Crecelious asserted he did not care to take up army work at this time, owing to the fact that there were few promotions in sight in the future, and also on account of his family. He will remain in his present position indefinitely.

## MISS THE FIRST MEET IN 25 YEARS

That all accidents are unfortunate, is the conclusion reached by Col. N. B. Deatherage, who is of the opinion that the one with which he met Thursday, while it might have been more serious, comes under the list of "very unfortunate ones," for it was this way.

Mr. Deatherage was preparing to start to Houston, Texas, Friday to attend the National Reunion of Confederate Veterans, but was compelled to give up the trip. The attending physician persisted upon seeing his injured arm, as a result of getting it caught in some machinery. This will be the first convention he has missed in a quarter of a century, and the disappointment is very keenly felt by him. He also contemplated visiting the Xalapala farm to attend a big barbecue, but this trip also had to be dispensed with.

### Buford Munday Still Free; Arrest Reported

There is a persistent report in the vicinity of Valley View that Buford Munday, mulatto, charged with having assaulted Mrs. Chas. Sowers at her home there some time ago, has been arrested by police and was in custody at Paris. Chief of Police Devore of Richmond, has not been informed of any capture. There have reports circulated in various localities of traces of Munday, however, it is not believed that this capture has been effected, although there is a reward offered.

### NO FIRES IN TWO WEEKS

With no fire alarm sounded within almost a fortnight, residents of the city are settling back to more like normal conditions and there is a feeling of more security. Many are of the belief that the vigilance of the citizens of Richmond, and the effects of the rewards issued for the apprehension of the alleged firebugs have had their effect and no more outbreaks are being looked for at present.

### Soldier Crowded Man Out of Hospital Room

Friday when a young ex-service man was brought to the Pattie A. Clay Infirmary in immediate need of medical treatment, it was necessary to make room for him, but there was no room or bed. One was made; that is, a man was taken from the institution and placed in a hotel, where he will be kept for some time, and thus a room was provided for the veteran. The capacity of the hospital is being taxed, and has been for several weeks past. Since the establishment of the U. S. hospital unit the conditions have been more crowded than ever.

## BROOKLYN WINS

123 456 789—R H E  
Brooklyn ... 101 010 00x—3 7 0  
Cleveland ... 000 000 000—0 7 1  
Batteries—for Brooklyn Grimes and Miller; for Cleveland, Bagby, Uhle, and O'Neill.

(By Associated Press)

New York, Oct. 6.—With one victory over Brooklyn, Cleveland apparently intended today to depend upon Jim Bagby to pitch to another victory in the world's series. The Brooklyn players are claiming that the breaks went against them yesterday in the game which Cleveland won 3 to 1. Determined to reverse the result today, Manager Robinson, of the Brooklyn team, intimated he would pitch Grimes, a right hander, today, his left handed pitching ace, Marquard, failing to stop the Cleveland Indians yesterday.

Cleveland continued to rule a slight favorite to win the series, the odds remaining six to five.

## NEW STATE CENSUS

(By Associated Press)

Washington, Oct. 6.—Census figures as announced today, gave Alabama a population of 2,347,295 an increase of 209,202, or 9.8 per cent over 1910, thus passing Tennessee in the standing of states.

South Carolina's population is given as 1,683,662, an increase of 168,622, or 11.1 per cent.

Wyoming, the second smallest state, 194,402, an increase of 48,437, or 33.2 per cent.

Nevada, the least populous state, has a population of 77,402, a decrease of 44,685, or 5.5 per cent.

Kansas fell from the 22nd state below Oklahoma and Louisiana while North Carolina displaced Kentucky as the 14th state.

### Sugar Half Cent Lower

(By Associated Press)

New York, Oct. 6.—The price of fine granulated sugar fell another half cent today, making it 11 1-2 cents per pound, the lowest record of the year.

### Up To Missouri As To Who Told The Truth

(By Associated Press)

Washington, Oct. 6.—President Wilson today telegraphed Senator Spencer, republican, of Missouri, that he was content to let the voters of Missouri decide which of them was telling the truth. The telegram referred to the Senator's charge that the President had promised military aid to Rumania and Serbia, which the President yesterday said was false.

### Federal Officers To Aid In Liquor Theft

(By Associated Press)

Chicago, Oct. 6.—Five federal agents are en route to Chicago from Washington today to assist District Prohibition Officer Dalrymple to investigate reports that \$175,000 worth of whiskey was stolen here upon its arrival from Louisville. Three of Dalrymple's men were ordered to Louisville to investigate the shipment of whiskey from there.

### Georgia Primary Race

(By Associated Press)

Atlanta, Oct. 6.—The run-off of the primary to decide the democratic gubernatorial nomination is being held today, with Thomas W. Hardwick, United States Senator, and Clifford Walker, former State Attorney General, as candidates.

### Harding Off For West

(By Associated Press)

Marion, O., Oct. 6.—Senator Harding, riding on a special train, accompanied by Mrs. Harding, secretaries and newspaper men, left Marion this morning for Chicago on the first leg of his campaign trip to the Middle West.

### Governor Cox To Reach Kentucky Thursday A. M.

(By Associated Press)

Dayton, O., Oct. 6.—Gov. Cox today went to Columbus to attend to executive business. He leaves this evening for Kentucky, and will make his first speech tomorrow at Elizabethtown. He speaks at Bowling Green in the afternoon and Nashville at night. Friday morning he speaks at Paducah and at Louisville Friday night.

President Wilson will make several speeches from the White House porch, and may also issue several statements during the next month.

## BUSIEST COURT SESSION IN YEARS

### Grand Jurors Have Avalanche of Work With Many Important Cases To Investigate

The members of the grand jury will follow the instructions of Judge W. R. Shackelford in making a complete investigation of the property of the county. This was asked, as is usually the case, however, the investigation is generally a feature of the work at every session of the jurors. This phase of operations, however, will not receive attention of the jurors until more important business is finished. This will include official management and county institutions. The county infirmary as the jail and other buildings of the county are included. Judge Shackelford stated to the jurors that it was their duty to make a complete inspection of all property and official business. It has been the custom of grand jurors to select a committee to look after this phase of the work and this will perhaps be done within a short time.

It is conceded, however, that there is a greater number of cases of an important character to the investigated this fall than at any time for years, if at any former sitting of the jury. The list includes the shooting of Mount Pursifall by his brother-in-law, Thomas Alcorn, as well as the actions of the former, who also used a gun, according to reports; the shooting by Constable Andy Poff of Jasper Kirby, at the Berea fair, resulting in the death of Kirby. Poff has been out on bond for some time; Mrs. Lizzie Finney and Miss Florence Turpin, charged with obtaining money on false pretenses, out on bond; John Keeton, for murder of Robert Powell, held without bond; Emil Lohrlich against whom there is a charge of murder, at Pattie A. Clay Infirmary in precarious condition, as a result of shooting himself after shooting and killing Mrs. Lucy Estes; a number of colored men charged with assault and battery, others with shooting with intent to kill, and still others charged with firing deadly weapons, forgery cases and others, too numerous to mention.

### Suspect Plot To Fix World's Series Last Year

New York, Oct. 6.—Belief that a half million dollar pool, backed by "big moneyed men," had been arranged in New York to fix last year's world's series was expressed today by Assistant District Attorney Smith, who said he intended to push the inquiry until "some of these crooks were landed in the penitentiary."

### REPAIRS COMPLETED; WORK IS RESUMED

Repairs to a number of machines used in placing the paving on the city streets have been made and operations are now being continued uninterrupted. The breaks, however, did not work such a great hardship, owing to the fact that the extra men were taken off the streets and placed at the rock quarry, where the crushers were kept in operation, with the result that there is a goodly supply of crushed stone ahead.

### No Trace of Shanks

While it is probable the grand jury will investigate the murder of John Hammonds, L. & N. track foreman, some time ago at the hands of Elbert Shanks, negro, it is not believed there will be any testimony available regarding the whereabouts of the negro who left the city soon after his fatal assault upon Hammonds. Reports were rife relative to his being in the south, and while this opinion is accepted by the police, officials claim there is no direct tract of him.

### TOO LATE TO CLASSIFY

FOR RENT—One nice room for rent in private home, close to boarding house; good location, phone 588 242 2p.  
FOR RENT—Large house on corner of Third and Moberly; possession given November 1; inquire next door.  
STRAYED from my home on East Walnut street, Tuesday evening, a black and white pony. Phone 141 242 1p.  
LOST—About ten days ago between Wells' Grocery and Broadway, a cameo pin, liberal reward for return to Mrs. Ed. Carson's residence.  
FOR RENT—Two large rooms, furnished or unfurnished, suitable for light housekeeping. Phone 536 or call 511 E. Main street.  
242 2

### PIE Supper at Black's School House on October 9—Saturday Night, 8 o'clock. Everybody welcome. Bring a pie. Miss Lonna Templeman, Teacher. 242 2p

## WAREHOUSEMEN TO MEET AT LOUISVILLE

### Tentative Tobacco Regulations to Be Discussed There Next Saturday Morning

One of the series of hearings on the tentative tobacco regulations to be issued under the United States Warehouse act will be held in Louisville October 16, and all Kentucky warehouse men are urged to attend, local tobacco men have been notified by the United States Bureau of Markets, which has charge of the hearings.

The regulations have been printed in tentative form and will be used as a basis for oral discussion at the meeting. Similar "round table" discussions of the rules will be held in Danville, Va.; Richmond, Va.; Wilson, N. C.; Clarksville, Tenn.; Dayton, Ohio; Huntington, W. Va.; Lancaster, Pa.; Hartford, Conn., and in New York City.

The meeting in Louisville will be held in the offices of the Louisville Board of Trade, beginning at 10 a. m. on Saturday, October 16.

The United States Warehouse act places all warehouses in the United States handling agricultural products under the supervision and regulation of the secretary of agriculture.

Madison county producers are preparing their tobacco for the winter, some of them stating that they have not thought of selling the crop of this year, owing to the unsettled market conditions generally. While it is the general belief that much tobacco will be sold during the early period, it is a known fact that here as well as elsewhere producers who are not compelled to rid themselves of the crop are preparing to withhold it from the market until satisfied with prices. The action of the Burley Growers' Association is being watched intently by many, and there is a big list of growers co-operating upon this matter. They assert they will have to procure a good price for their product to come out even, not to mention money making and their intention is to await a reasonable price, or it is said, there will be much of the present season product held over until a very later date.

## EASTERN ELEVEN BRINGS HOME BAG IN

Prof. George Hembree, director of athletics at Eastern Normal, is just getting started in his efforts for the season. He has organized a foot ball team and has had a practice game in which he made his initial bow as this part of the country. After the game Prof. Hembree bunched up his little eleven again, together with the laurels of the evening, including a score of 7 to 0, and returned home well pleased.

Now, when it comes to being a captain, Joe White, of the local squad, proved himself no piker, for his work from start to finish was out of the ordinary, considering the fact that this was the first game of the season and the first contest for any of the players this year. The touchdown came in the final half. This was made by Goodman on a forward pass. Goal was easily and gracefully kicked by Bill Crutcher, who, it is said, can always be relied upon.

The next game on Eastern's schedule will be with Georgetown High School on Friday, October 22. There will be a number of games booked for the local school it is expected, within a short time. The start by the boys at Paint Lick is very encouraging to all concerned.

The team lined up as follows: Goodman left end; Adams, left tackle; Hoskins, left guard; Carr, center; Rice, right guard; Spillman, right tackle; Covington, right end; Blanton, quarterback; K. Crutcher, left half; B. Crutcher, right half; White (captain), fullback.

### Brakeman Is Recovering

Burt Parker, L. & N. brakeman, who sustained a severe scalp wound and the loss of two toes as a result of falling between the cars of his train near Ford, is recovering at a local hospital, where he was hurried after the accident. At first it was believed the man's head had been crushed, however, developments proved otherwise, and he will soon be able to be taken to his home in

NOTICE—Hauger's chain of 37 stores enables you to buy much cheaper. Glyndon Hotel E. L. O'Brien. 242 3
